

*Australian Association for the Manual
Handling of People.*

STAMFORD GRAND HOTEL

GLENELG SA: ON THE BEACH

EVERY*body***MATTERS**
20TH ANNIVERSARY CONFERENCE

MARCH 17TH & 18TH MARCH 2022
**“EVERY BODY
MATTERS”**

9th Biannual Conference Adelaide South Australia

After 22 years the Association has always been committed to ensuring a safe environment for networking, and it appears the time will be right again in March 2022 to get back to “near normal”. Whilst we have all had to put travel and socialising on hold, it was in the best interest of the Association to wait for the right time to put on a face-to-face networking event. With our vaccination rates rising and a greater understanding around the nation of managing COVID, it is time to get back together in March 2022. We have retained the event in South Australia - Adelaide – it’s place of inception and are commitment to provide a forum for likeminded people in the industry of Health & Safety, people handling and ergonomics to [get back in touch](#) and network on current actions & trends as well as what to expect for the future.

The show has been scaled back to a 2-day event of mostly practical interaction and demonstrations. Whilst we hope to get back to the usual conference format in the future, it has been an overwhelming consensus that our members want to get back to the basics, as well as trouble shoot complex situations and behaviours of concern in relation to manual handling strategies in care.

As a multidisciplinary group of healthcare and OHS professions we aim to share ideas and promote continuous improvement in the systems, training, equipment and assistive devices available to safely move and handle people in the health and community services environments, whilst also ensuring person centred care across all avenues of the care industry.

This conference provides not only networking amongst like-minded people but also an opportunity to see, touch and test all the latest in technology and innovative equipment from our sponsors. Check out the new schedule and register on www.aamhp.org.au and follow the link to the conference 2022 page.
